Saarbrücken, 20.12.2024

Elimination of a test from ETA-18/0628

Dear Ladies and Gentlemen,

as the intumescent layer former - BSDSB - will no longer be included in our scope of delivery in the future, the following part of the test of our ETA-approval 18/0628 is omitted here, as the BSDSB is a component of this.

The test can be found on page 15 of our ETA approval.

Page 15 of 18 of European Technical Assessment no. ETA-18/0628, issued on 2023-03-27

Annex 2
Description of the installations for the confirmation of fire resistance

The below applies to seals with recessed luminaire, lids (bs112/bs113) and intumescent material BSDSB in Lignotrend ceiling/roof element.

Best regards

f-tronic GmbH
